Bass/ Keys /  
Samples

**Alexander Helfer**  
Guitars

**Sebastian Schaffert**  
Vocals

**Jonas Pfeiffer**  
Session-Drums

### Biography

Path of Destiny emerged in February 2007 out of a small Heavy Metal-project and experienced several line-up changes since then.

The band-members from Thuringia (Germany) are ever since known to cook up their own “metal meal” consisting of heavy melodic death metal-riffs and a pinch of symphonic influences. The songs add up the best parts of both music styles to a brutal but still melodic unity. Besides of Dimmu Borgir, Hypocrisy or Kataklysm, Behemoth and The Black Dahlia Murder are also counted amongst the band’s influences.

Amongst the biggest achievements so far count several festival- and support-performances as well as the labeldeal with Apostasy Records in 2016 that made the release of the second album “Dreams in Splendid Black” perfect. Path of Destiny look back to a long-time history with over 130 live concerts in more than 10 years. The 3<sup>rd</sup> studio album is set to be released in the first half of 2021.
